“ One of the most loving, honest, trusting & dedicated “ Doctors” as everybody knew him as Dr.Gary in Trenton. He would make house calls after hours as I remember he stitched my hand on a W/E as I cut it w/ a can top.My children had strept one W/E and he came to the house and called in antibiotics for them, knowing they could be much sicker, if they waited 2 days, till his office was open. We had gone to Church with Gary & Gwen for 20yrs. Along with there son, Matt. There were the most loved family as Gwen is and Angel, Matt is a Paramedic, you could see the love in Gwen &’Matts eyes, when they were all together. In the 40 yrs. I had known him, he had never raised his voice once . That, to me, speaks volumes of how “Godly “Gary Rexroate was. He will be missed as he was loved by all. I know Gary is looking down on the love of his life, as they were always together. I pray one day, we will all be together again. Until then, I’m happy you are not suffering and you are in a place many of us pray we will be. God Bless, Dr. Gary

“ I wipe the tears from my eyes as I write this. Gary Rexroat was a good friend and wonderful clinician at our UF Community Health and Family Medicine clinic.

When he returned to UF as a physicians assistant for the Fanning Springs and then the Old Town Clinics I was the person he talked to in Community Health and Family Medicine about what his projection for number of patient visits could be in a year. He was very confident that he could increase our patient base and he assured me that he would "make the numbers." In that short interview, I was sure we had a wonderful, dedicated, caring addition to the healthcare team at our then only rural clinic.

I was the administrator and he the physicians assistant who saw one another at quarterly clinic meetings. At these meetings a team of staff met with clinic manager and clinicians to discuss patient visits, revenue and expenses for the clinic. Dr. Gary was right. Those patient visit numbers amazed our team and even better our upper

management.

Memories of our times together will continue to keep Gary Rexroat alive in our hearts.

“ Dr. Gary was so much more than our physician, he was our friend, whether we were living in Florida or in Tennessee. We will never forget the kindness and caring that he always showed, and his smile was very special.

“ I met Dr Gary in Trenton about 40 yrs ago I was having some problems and my Dr then did not seem to understand my problem.. Gary knew right off it was Postpartum Depression and he talked with me and gave me the med's I needed.He was a gift from God to me.And from that day until now he has been mine and my daughters Dr. Later the depression came back several time and he was always there to talk me down and give me the support needed. I can truly say if it were not for this amazing kind gentle man I would not be alive today.He knew how lost I was and he kept me coming back until I was over the danger and back to being myself again.It breaks my heart to know he will not be there anymore. He will never be replaced in my life. I was so blessed to have had him in my life.

My heart goes out to his family,the loss it truly great. He was a great Doctor and a wonderful person....I will miss you Dr Gary

“ I too considered Gary a friend. He was also our family physician. All 3 of my children grew up visiting Gary as I'm sure a lot of children did in Gilchrist and surrounding counties. Gary was such a kind compassionate person. I saw him for the last time in Ayers Nursing facility and he was optimistic and positive. Reassuring me that he was "gonna beat this thing". I was able to give him a hug. I will carry Gary in my heart and pray for his family. He will be sorely missed. Very few men have the qualities of Gary.

“ Gary was one of the best men I have ever known. He was always there for my family and he didn't care what time it was or if we had an appointment. Even when their office started a pediatric practice...he still saw my children. I would call and say I need to make an appointment for my son or daughter and they would say Gary doesn't see pediatric patients. I would tell them ...he sees mine.....and they would put me on hold and come back and say..... he can see you at XXX oclock. First time I saw him after my mom was diagnosed with cancer...he walked into the room and I just started crying and he said...I know. He never made you feel like you were bothering him or that he was in a hurry. I know that the heartbreak I feel is NOTHING compared to his family but I want them to know that there are so so so so many people loving and missing him as well. I pray for the Lord to wrap you in his loving arms and give you the comfort you need.

“ Gary in one word, Epic! What an amazing man, made me feel welcome from day one when I moved here 27 years ago! He joked about taking care of us Marines when he was in the Navy. Three years ago when my little brother died in a tragic tree cutting accident, I knocked on his door before I went next door to tell my Mom, I was so worried she would have a heart attack, he gave me a hug and said “your Mom is stronger than you think, but

I'll be right here if you need me"! What a wonderful man! May God grant his family peace!

Dawn Marsh - July 20 at 07:06 PM

“ Word has just reached me of Gary's passing. Gary and I went to high school together. We joined the Navy together and endured the hardships of boot camp together. We then went our separate ways in the Navy but were in contact with each other directly or indirectly over the years. I always looked at Gary as my Hero. He loved his country, his family, and his friends. a person of his caliber is hard to find in today's world. He left his mark and the this world is a better place thanks to "Doc" Gary. Gwen ,my prayers and thoughts are with you and the rest of the family.Rest in peace my dear friend.

“ I'm not surprised to read the glowing tributes above as written by Gary's many patients, staff, family and friends. He was the PA role model I ascribed to be nearly 40 years ago when I was starting out and continued to highly regard these many years later. Gary was a consummate medical professional graced with intelligence, warmth, and a sense of humor, but above all, he exhibited genuine caring for each and every patient. I learned of Gary's passing just today and am deeply saddened for the great loss of all he was to all who knew, loved and/or were served by him. Rest in peace, dear Gary.

Pamela R. Patton, PA, MSP, DFAAPA - July 23 at 02:00 AM

“ I am shocked and grievously saddened to learn of Gary's passing. He played such a strong role in the development of my career as a PA. He was a model mentor and a dear friend. I could call on him with any question or concern and he was always there with the right words or answer. His skills as a PA were nothing short of amazing. He leaves a huge void in the lives of countless folks that he helped and advised in his gracious and unselfish life. My heart breaks for his family, friends and patients. Now is finally at a well deserved rest. Peace be with you, Gary, and thank you so much for all you gave on this earth.

“ We have known Gary since coming to Gainesville 42 years ago. and no better "doctor" has there ever been than PA Gary Rexroat. The roles he has played in the community and lives of so many persons is amazing. Since I work at UF CHFM in college of medicine, as a physician there, I was thrilled when he returned to the dept to work at the Old Towne clinic. He made a tremendous impact wherever he was. I am sure that will be true in heaven. What a loss; there are none like Gary Rexroat, friend and coworker. Ann and Gary Grooms
