“ *Lonnie was my cousin; we share many likenesses. Including eye color. We got closer as we became adults and share many memories. My fondest is when she would come to Las Vegas. When my son Kris was born, at 3 weeks old, she flew to Vegas with me and my children to help me return and move back into our home after being on the road for many years. She visited my family here in Vegas when she could. We were performers. She was a God sent at this time and stayed about 2 weeks. The weather was warm in July, and she enjoyed the pool and looked after Jessica in her motherly fashion. Jessica was thrilled to received Lonnie's attention as my newborn son and move back home took up most of my time. Lonnie would do anything she could to help whom ever needed it. I love you and miss you deeply. Doreen and pups*
