“ *I was so sorry to hear about John. After working with him for many years before my retirement, I can truly say that he was a great engineer that loved his work. He had a unique sense of humor and also loved roller coasters and fishing with friends. His family was important to him and I remember him talking about his niece and sister as well as an uncle that did crossword puzzles in ink. Being a compassionate person, John took in cats so they would have a home. He was a good person! I pray that he has found peace and that you remember the good times. My thoughts are with you all--
